RE: Unique BIN/PCN for Medicare Part D
Effective: 6/27/12

The Centers for Medicare and Medicaid Services (CMS) has indicated that a unique Medicare Part D BIN/PCN combination must be utilized in network pharmacy electronic claim transactions. Beginning **June 27, 2012**, pharmacies will be required to enter the BIN, PCN and member ID that are unique to the member's Medicare Part D enrollment. You should submit the information as written on the identification card to avoid point-of-service rejection. Navitus currently utilizes two unique PCNs on behalf of its Medicare Part D clients.

BIN	PCN	NAME
610602	EGWP	Navitus MedicareRX
610602	NVTD	Colorado Access MA-PD and Chinese Community Health Plan MA-PD

If a Part D claim is submitted with incorrect 4Rx data, the expected 4Rx data will be returned on the claim:

NCPDP REJECT CODE	NCPDP REJECT CODE EXPLANATION	NCPDP FIELD NAME
01	M/I BIN	101-A1
04	M/I PCN	104-A4
06	M/I GROUP NUMBER	301-C1
07	M/I CARDHOLDER ID	301-C2

Additional messaging will provide the correct BIN and PCN to use.

Group ID will be ignored by the processor. However, it is highly encouraged that the Group ID is submitted for all Part D claims. Please enter the information that appears on the member's ID card.

Please Note: If a member does not have his or her identification card, you can submit an E1 transaction to the Part D Transaction Facilitator. **Please submit claims in D.0 format or claims will reject for Medicare Part D only. Reject will be "02" M/I Version Number.**
